Superformance GT40

ID Numbers

Car Number in the SCORE Registry

The Superformance registry **car number** is one of three formats depending on whether a build sequence number, GT40 P number, or both were used to identify the car at the factory during build.

SPG0nnn where nnn is the Hi-Tech build sequence number.

SPG2ppp where 2ppp is the GT40 P number.

SPG0nnn/2ppp where both were used.

The build sequence number and GT40 P number are sometimes related (nnn = ppp) and sometimes not.

GT40 Chassis Number

The GT40 chassis number is in the form **GT40-P-2nnn** where 2nnn is the GT40 P number

The GT40 **chassis number** plate shown above shows the chassis number as GT40-P-2192. The chassis number plate is typically attached to right hand side or left hand side of the firewall inside the engine compartment.

VIN Number

The **VIN number** is assigned by the state where the car is registered. Location of the VIN tag on the car may vary by state, but the **VIN number** will be on the registration card.
